
Heres to us! 14/9/07

Im chuffed! In month 5 of this financial year we've already exceded our turonver figure of last financial year.

Much of this growth has been due to our increasing number of referring partners we work with such as general marketing companies, pr companies and web development agencies. Also (it has to be said!) most of our biggest new clients have found us via our own ppc advertising for our web site. Its been a hard slog and im glad to see my creation performing like England against Russia did on Wednesday.
